

APPLICATION FOR PERMISSION TO CHANGE POINT OF DIVERSION, MANNER OF USE AND PLACE OF USE OF THE PUBLIC WATERS OF THE STATE OF NEVADA HERETOFORE APPROPRIATED

Date of filing in State Engineer's Office	MAY 09 2005	
Returned to applicant for correction		
Corrected application filed		
Map filed	MAR 12 1992 under 57238	

The applicant ConAgra, Inc. hereby make application for permission to change the Point of Diversion of water heretofore appropriated under Permit 44646

- 1. The source of water is Underground
- 2. The amount of water to be changed 5.0 c.f.s., 2,240 g.p.m., 181 AFY consumptive use.
- 3. The water to be used for Industrial
- 4. The water heretofore permitted for Same
- 5. The water is to be diverted at the following point of diversion under Permit 64486 as shown on map filed March 12, 1992 under Permit 64486, Production Well 46-1, NW ¼ of SE ¼ of Section 1, T22N, R26E, M.D.B.&M., or at a point from which the S ¼ corner of Section 1 bears S 00°07°W, a distance of 1672.25 feet.
- 6. The existing permitted point of diversion is located within the SE ¼ of the NW ¼ of Section 12, T22N, R26E, M.D.B.&M., at a point from which the W ¼ corner of said Section 12 bears S 67°59'23"W, a distance of 2221.09 feet. See map under Permit 44643.
- 7. Proposed place of use same as existing place of use; see map under permit 44643.
- 8. Existing place of use within the 160 acres NE ¼ of NW ¼, SE ¼ of NW ¼, SW ¼ of NW ¼, NE ¼ of SW ¼, Section 12, T22N, R26E, M.D.B.&M.
- 9. Use will be from January 1 to December 31 of each year.
- 10. Use was permitted from January 1 to December 31 of each year.
- 11. Description of proposed works Existing well and pump under permit 64486.
- 12. Estimated cost of works N/A
- 13. Estimated time required to construct works N/A
- 14. Estimated time required to complete the application of water to beneficial use N/A

72712T

15. Remarks: Due to the pumping of the resource by Brady Power Partners, the water level has dropped below the Applicant's wells. This application is to change, on a temporary basis, Applicant's point of diversion to one of Brady Power Partners' wells so fluid can be supplied to Applicant during the 2005 onion drying season. This Application is without prejudice to all of Applicant's contract and other rights.

By Robert W. Marshall, Agent s/ Robert W. Marshall P.O. Box 2790 Reno, NV 89505

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This temporary permit to change the point of diversion of a portion of the waters of an underground geothermal source as heretofore granted under permit 44646 is issued subject to the terms and conditions imposed in said permit 44646. No other rights on the source are affected by the change proposed herein.

It is also understood that this right must allow for a reasonable decrease in reservoir pressure and heat. The well shall be constructed and maintained to prevent any waste of the geothermal fluid above or below the surface. The producing well discharge shall be closely monitored and recorded.

The annulus of any well drilled under this tempoary permit is to be cemented from the top of the producing or injection interval to surface to prevent waste and to prevent any communication with fresh ground water. Only geothermal waters are to be diverted under this temporary permit and the cooled geothermal fluids are to be returned to the source via the injection well.

This temporary permit does not relieve the operator of the requirements of any other state, local or federal agency. This temporary permit does not extend the permittee the right of ingress or egress on public or private lands.

This temporary appropriation permit allows for a total consumptive use of the geothermal fluid not to exceed <u>181</u> acre-feet annually. The State Engineer reserves the right to make findings regarding the consumptive use of the geothermal fluid under this temporary permit and impose additional conditions thereto.

This temporary permit is issued subject to the terms and conditions imposed by State Engineer ruling Number 3894 dated June 26, 1992, and is subject to the Agreements executed by and between Gilroy Foods Inc and Brady Hot Springs Geothermal Associates dated December 18, 1987, and by and between Gilroy Foods Inc and Nevada Geothermal Power Partners, Limited Partnership dated February 1, 1991.

Partnership dated February 1, 1991.

This temporary permit is issued with the understanding that the Monitoring Plan, which is Exhibit A of the Stipulation dated June 21, 1996, by and between Brady Power Partners and Gilroy Foods Inc., will continue to be implemented. Any modifications of the reservoir-monitoring program shall be approved by the State Engineer, the Nevada Division of Minerals and the Nevada Division of Environmental Protection.

The total combined withdrawal and consumptive use of geothermal fluid under these temporary permits 72710-T, 72711-T, 72712-T, 72713-T, 72714-T and 72715-T shall not exceed **1,489.62** acre-feet per season. (Continued on Page 3)

This temporary permit is issued pursuant to the provisions of NRS 533.345 Section 2 and will expire on <u>October 31, 2005</u> at which time all rights herein granted shall revert to the right being changed by this temporary permit.

The amount of water to be changed shall be limited to the amount which can be applied to beneficial use, and not to exceed **5.0 cubic feet per second, not to exceed 181 acre-feet seasonally.**

Work must be prosecuted with reasonable diligence and be completed on or before:

Proof of completion of work shall be filed on or before:

Water must be placed to beneficial use on or before:

Proof of the application of water to beneficial use shall be filed on or before:

Map in support of proof of beneficial use shall be filed on or before:

IN TESTIMONY WHEREOF, I, HUGH RICCI, P.E.,

TEMPORARY

State Engineer of Nevada, have hereunto set

my hand and the seal of my office,

this 19th day of July A.D. 2005

State Engineer
